SECURITY UPDATE--As I indicated in the January "Security Update", my recommendation to Executive Staff in again permitting 24-hour access to students using the Huntington Campus buildings would be contingent upon having safety and security related issues in place to ensure student safety in these buildings.

As you may know, theDepartment of Capital Planning and Operation is in the process of getting a bid for the installation of a sprinkler system in the Tower Building. We have been informed that until the installation is complete, occupancy should be limited. I regret that we are unable to resume 24 hour access at this time.
